Descripción: Our Mission

Puerto Rico Technical Diving Center began training divers and serving retail customers in October 2006 as a center created to promote technical diving in Puerto Rico and the Caribbean. It is composed of specialized Instructors, Dive Masters, and Divers joined in a common effort to:

Promote safe, high quality underwater education and activities.

Encourage aquatic activities beneficial to the diving environment.

Promote divers at all levels and agencies to participate in diving related activities.

To accomplish our goals we independently teach diving courses of various levels and in different places. Our program develops skills by increasing diver involvement all the way to instructor level
