Descripción: In October, 1992, Excursiones Guariquén was born as the first receptive tour operator business in the western coast of Puerto Rico. We chose the word "guariquén" because in Arawak language it means "look" or "come here and see".

Pioneers in the region, the initial objective of our company was the development of a new and responsible way of doing tourism towards the exploring and recognition of the natural history of our area and our Taíno roots. We started catering the needs of locals with a

complete program of
tours and
expeditions departing
from Mayagüez.
Nevertheless,
our commitment with the
region gained us
islandwide
reputation with the
creation of "La Ruta del
Café" and
birding trips, which we
have been offering since
1992.

One year later,
AdvenTours was born
(1993) as a
result of the requests we
had for soft adventure
experiences from
international travelers.
We kept our
operation small to
guarantee the quality of
our service,
catering individuals and
small groups.

We expanded our wings
in 1997 offering our
services
to the hotels located from
San Juan to Fajardo. In
2001, we established a
partnership with the US
Forest
Service and by 2002 we
opened a seasonal office
in
Luquillo in order to offer
night hikes at El Yunque.
After 18 years in
business, all birding trips
will be

offered using our new name for the birding programs:
Birding Puerto Rico by AdvenTours. Our initial objective is still alive: to offer a high quality service on all our personalized trips. We focus our Birding Program on endemic species and sub-species. On the extended ones, we also look for Caribbean specialties.

We are a fully licensed tour operator with Certified Guides/Drivers by the Government and with all necessary permits and endorsements to offer our services, including night owling at El Yunque National Forest.

Join me in this unique experience through different birding sites in Puerto Rico, include www.birdingpr.com
